

moovit - User Guide for Android

Updated to Android v3.7

Main "Map view" screen:

Map objects:

Orange icon shows your current location.

Important: If there is an error in identifying your location, please check the GPS settings on your device.

Yellow icons represent other users nearby. Tap the icons for more information.

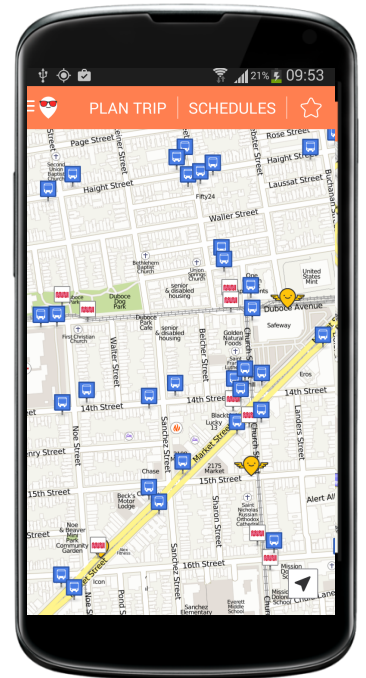

Stop icon represents a bus stop near you. Tap the icon to see list of lines that stop at the station, and their next arrival times.

Tap the icon to center the map on your location

Tap the compass icon to allow the map to change orientation according to your direction

Top menu:

Tap the star icon to see your **favorites**.

SCHEDULES

Tap 'SCHEDULES' to search **schedules** for a specific line.

PLAN TRIP

Tap 'PLAN TRIP' to **plan a trip** from any origin to any destination.

Tap the menu icon to see the app's main menu.

Station info screen:

Tapping on one of the stations will open the "Station Info" screen that includes a list of lines that serve the station and its number.

- 
Real Time – Exact arrival times of the next bus appear in orange and number of stations it need to pass until your station, based on user reports or GPS devices on the bus. When real-time info is not available, estimated arrival times appear in black, and are based on the schedule. **To refresh pull down the top of your screen and get updated arrival times for stations and favorites.**

Navigation from a station – Tap to plan a route "to" or "from" a station.

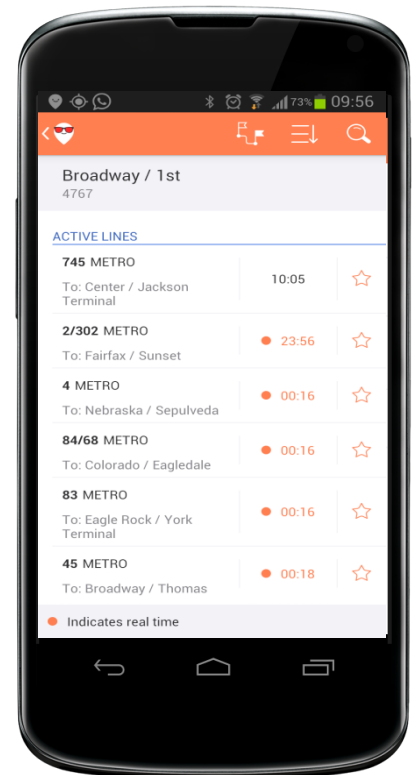

Add to Favorites – Press the star icon to add the selected line and station to your Favorites.

"Sort"- Press the "list" icon to sort the lines that goes by the station , by arrival time or line name/number.

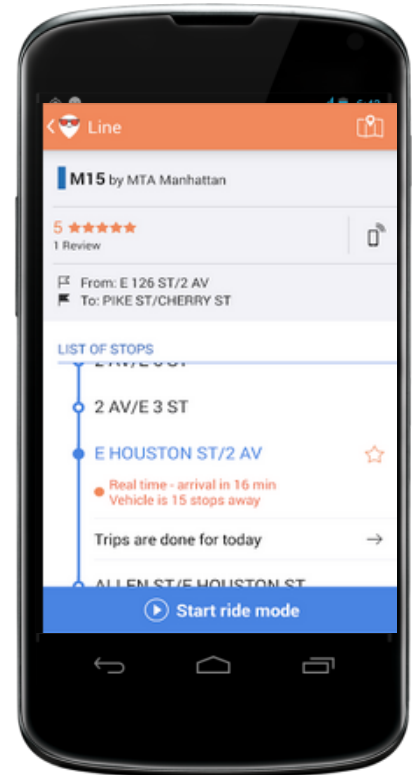

"Search"- press the "magnifying glass" icon to Search line in station.

Line info screen:

Tapping on one of the lines from the "Station Info" screen displays a new screen with information about the selected line.

- See the stop locations for the line
- Tap on any stop to see next arrival times at that station (shown in orange when real time is available)
- See ratings from other users. Tap the stars to see ratings & add your own.
-  Press the phone icon to subscribe to push notifications about this specific line.
-  Press the map icon to track the arriving vehicle on the map.
-  To see the full schedule, tap the arrow icon.

Trip planner screen:

Enter an origin and destination according to the following format: "Number, Street, city" (eg, 10 Noel Road).

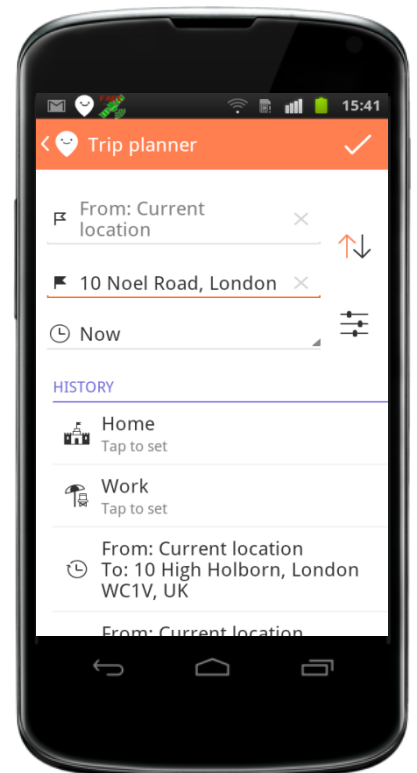

Tip: It is recommended to use detailed searches. "Wildcard" searches (such as a city or neighborhood name) will give less accurate results.

Leave the origin or destination field blank to search from/to your current location.

As you start typing, a list of addresses / points of interest will be displayed. For the best search results, choose one of the listed options.

You can plan your route quickly, by tapping on a past search from your "History" or from the Favorites list. These searches are displayed at the bottom of the screen.

Tip: To remove a search from the list, press on the search for a few seconds to open the float actions menu. From this menu, choose the appropriate option.

Advanced options:

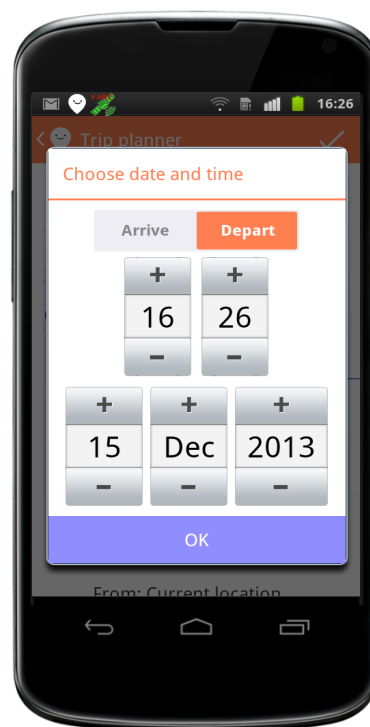

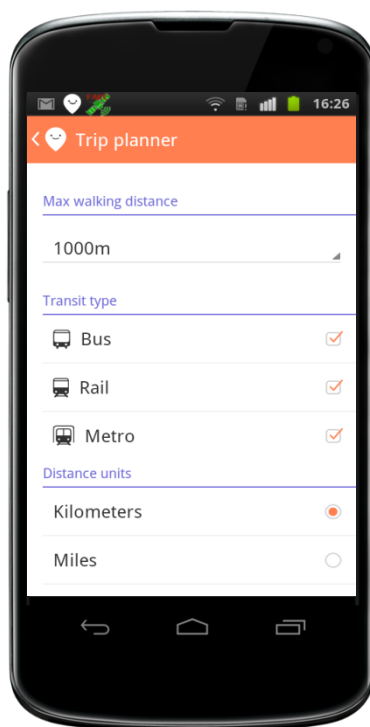

"Change Direction" icon - Switches between origin address and the destination address.

"Search Settings" icon - Allows you to set the maximum walking distance, transportation types and preferred unit of distance (miles / kilometers).

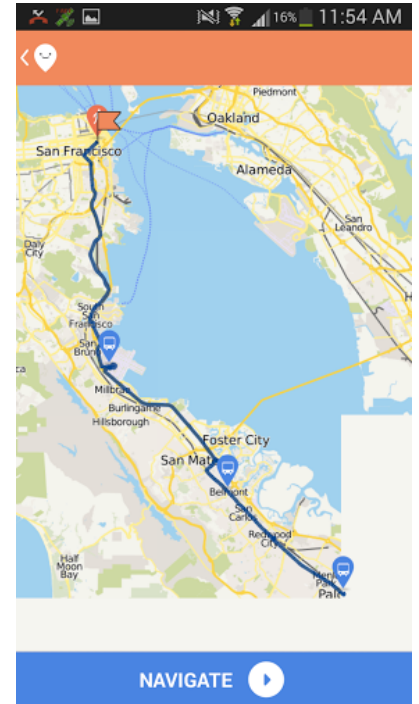

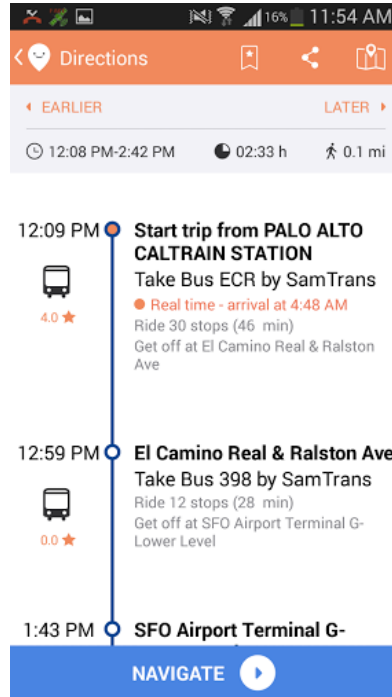

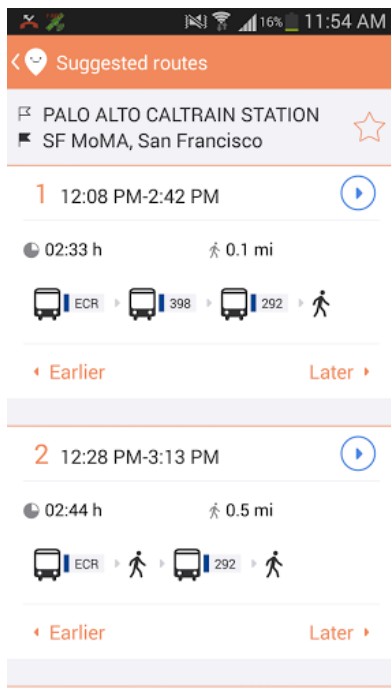

"Change the Time of Departure / Arrival" icon– Select the day and time of your trip. To search for a trip right now, leave the fields as they are.

Search Results:

After entering your search parameters, you will see several trip options.

Tap on any of the options to see full step-by-step directions, including transit and walking segments. If real-time data is available, it will appear in orange.

Once you have selected an option, tap  and go

"Map" icon – Tap to see the route on a map.

3.0 ★ "Ratings" icon – Shows the average rating of the line.

"Share" icon – Tap to send the route via e-mail.

"Favorites" icon – Tap to add the search to your Favorites.

"Save Trip Directions" icon – Click to save your trip directions to be able to access them when offline.

Tips:

1. Tap on "earlier" or "later" to see the same trip at an earlier or later time.
2. Tap on "Start Navigation" from the trip options screen to directly enter navigation mode

Navigation:

Navigation mode guides you to your destination with interactive instructions for all stages of the trip, including transit and walking segments.

While in navigation mode, you will see your dynamic ETA, get step-by-step instructions for each stage of the trip, be able to send reports about the ride (how crowded/clean is the bus, rate the driver, etc.) and get an alert when it is time to exit the vehicle.

The current step will display in the guidance box at the bottom of the screen. Swiping to the left will display the next steps. Moovit will detect your progress automatically. You can also advance to the next step by pressing "done".

Top menu (during navigation):

"Reporting" icon – Tap to send reports: How crowded / clean is the bus? Driver rating, etc.

"List" icon – Tap to see a list of the step-by-step directions.

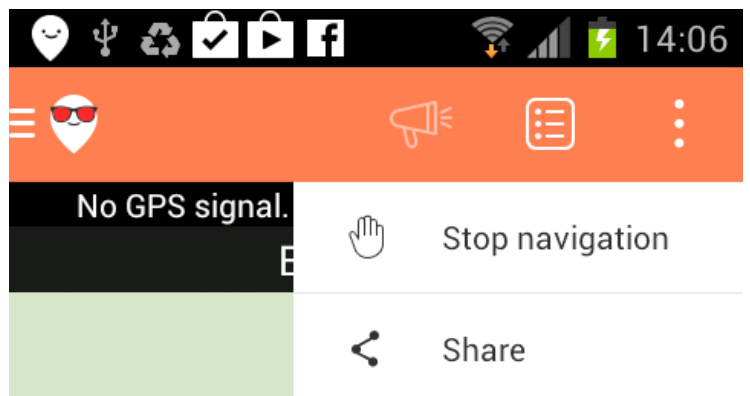

"More Options" icon - Will display the next options:

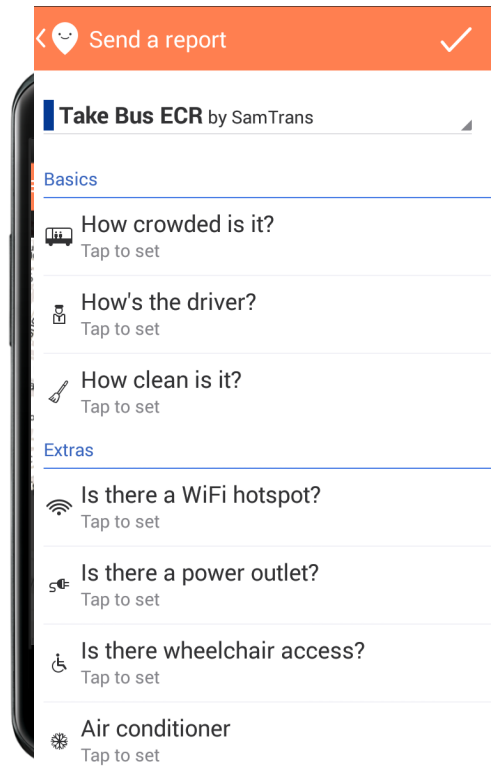

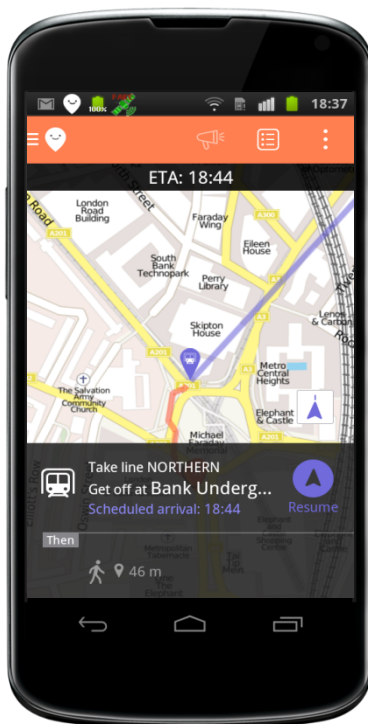

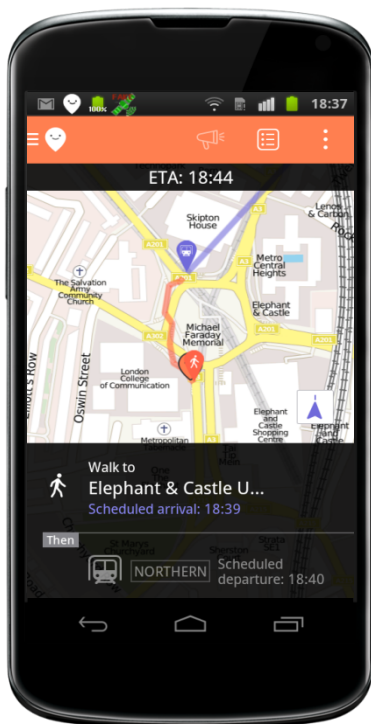

"Stop Navigation" – Stops the navigation and returns to the home screen.

"Share" – Tap to send the route in an e-mail

“Reporting” Option (during Navigation):

Help improve the public transit experience for others.

You can send a report on any of the following options:

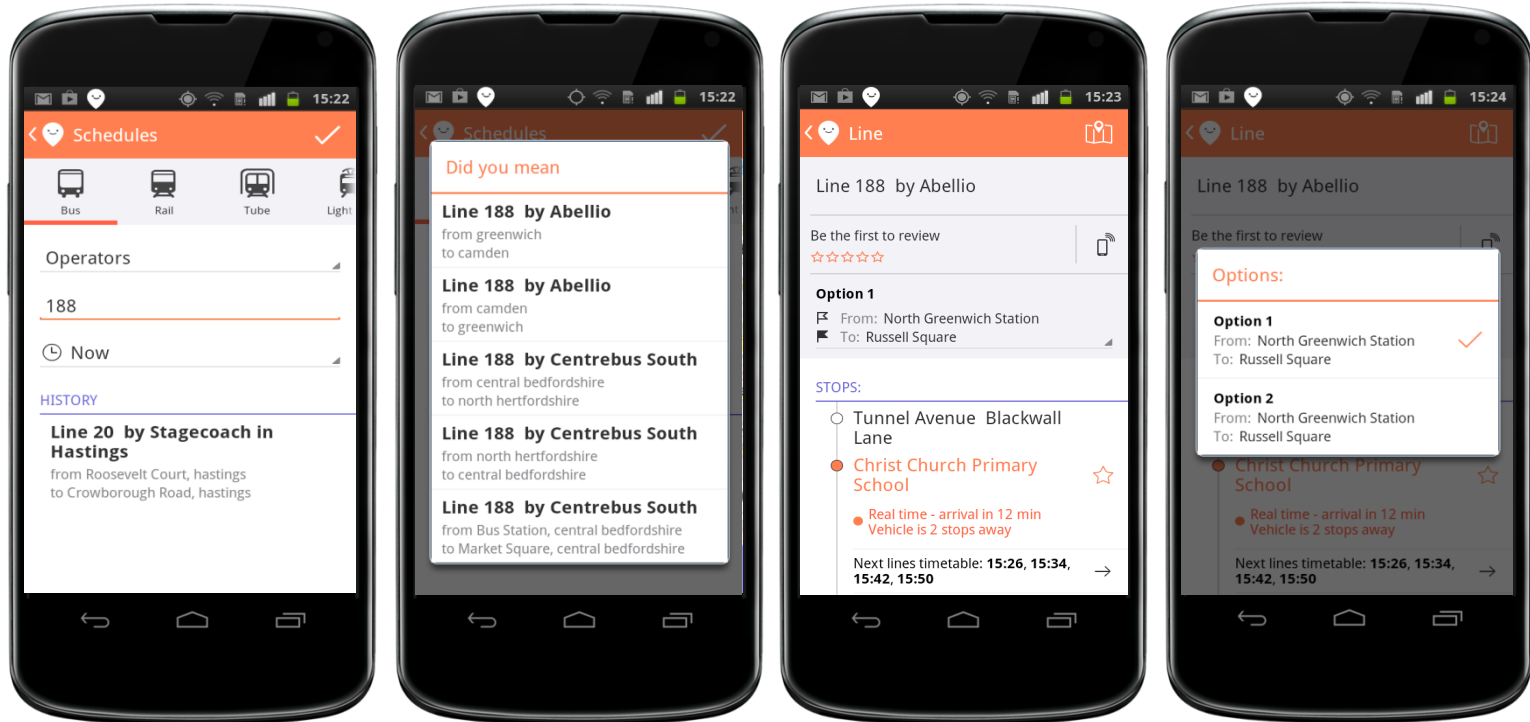

- **“How crowded is it?”**: Choose from: Plenty of seats/A few seats left/Packed full
- **“How’s the driver?”**: Choose from: Fantastic/Not so good
- **How clean is it?”**: Choose from: Spotless/Needs to be cleaned
- **“Is there a WiFi hotspot?”**: Choose from: Yes/No (or it’s not working)
- **“Is there a power outlet?”**: Choose from: Yes/No (or it’s not working)
- **“Is there wheelchair access?”**: Choose from: Yes/No
- **“Air conditioner”**: Choose from: Nice and cool/Too hot
- **Comments**: Write any general comments you have.

SCHEDULES

Schedules:

Tap on “Schedules” on the main screen to search schedules for a specific line.

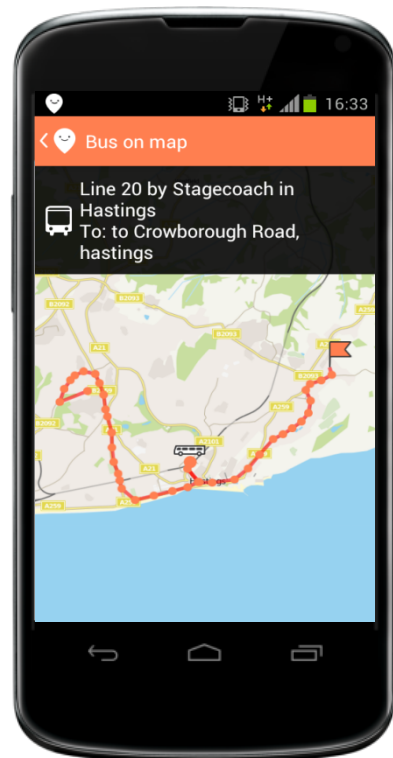

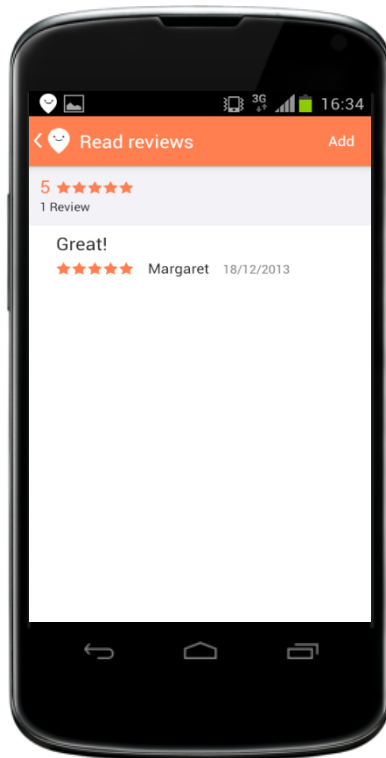

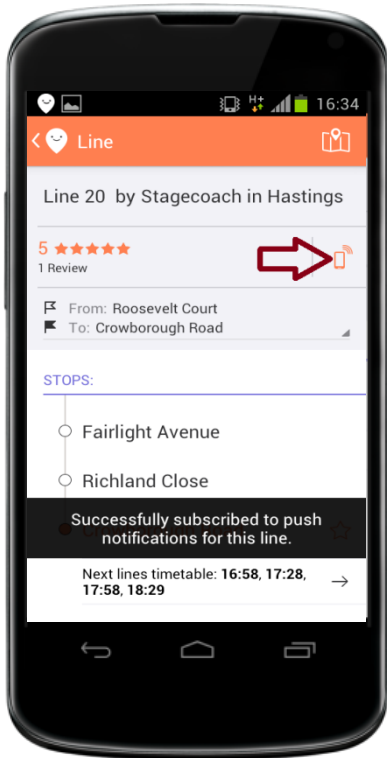

To view schedules for a selected line, enter the line number/name in the search box. To search trains, tap on the train icon and enter the origin and destination stations. For the best search results, select the operator.

Tap on the map icon in the top right corner to track the location of the vehicle on the map.

You can also read reviews and add comments about the line, and also sign up for push messages to receive service alerts about the line by clicking the phone icon: .

- To delete a search history, press and hold, and then click "Remove search".

Trip planning right from the map:

 Don't know the address? No problem! Press anywhere on the map for several seconds to drop a "pin". You can then plan trips to and from the pin location, without entering an address to the trip planner.

Ride Mode:

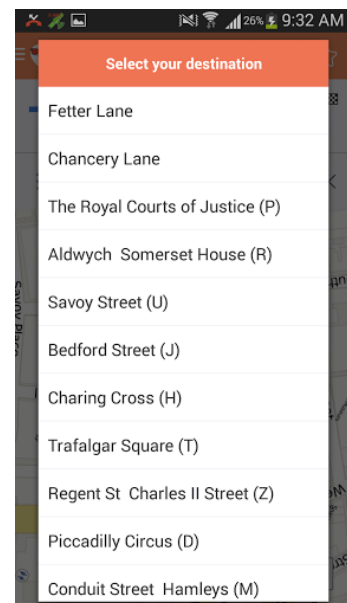

Now you can not only check exactly when your next bus or train will arrive- you can ride all the way with Moovit. Boarded a bus? Start Ride Mode- you'll get your exact ETA updated throughout the ride & even get notified when you're approaching your destination.

Here's how it works:

1. **Start Ride Mode-** As soon as you board a bus, open that line's schedule (or your search history) and tap on the "Go" button.

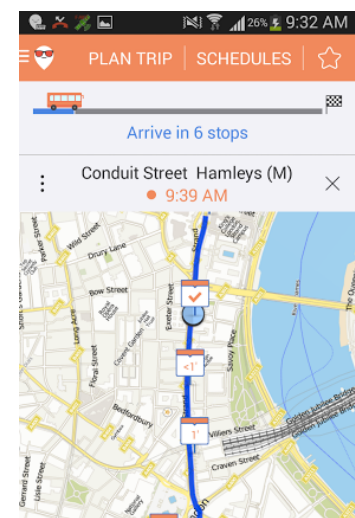

2. Choose your destination station.

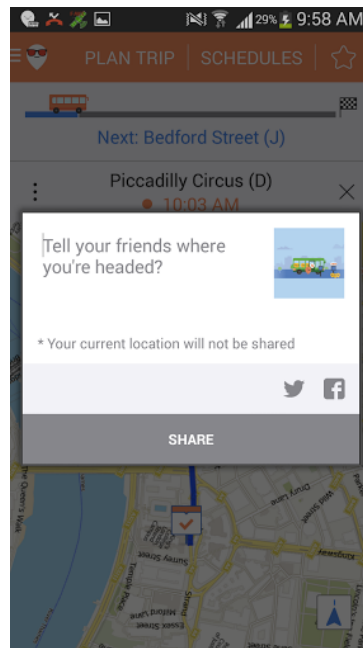

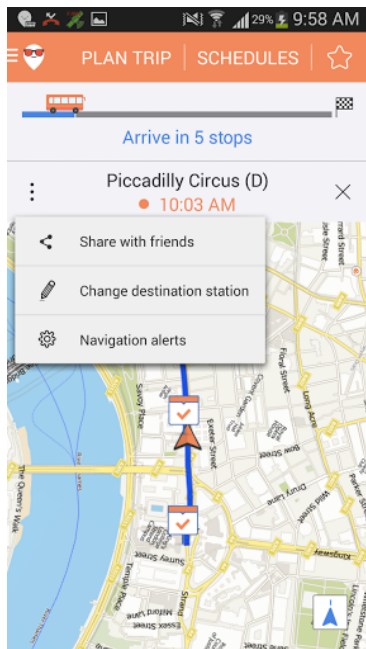

3. Get ETA & Reminders- See your estimated time of arrival. The time will update according to traffic flow as you go, including how many stops are left until your arrival.

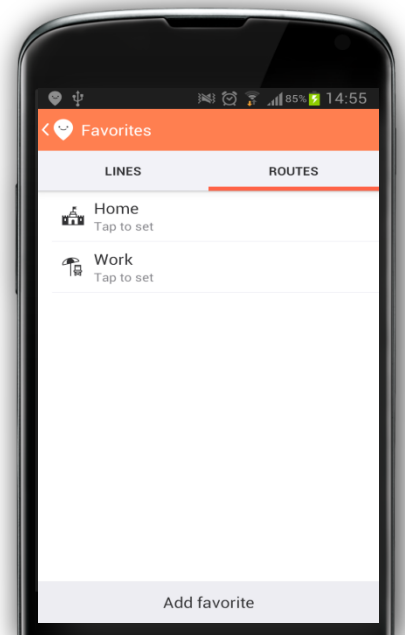

****Moovit will remind you when you're nearing and reach your stop, even if it's running in the background.**

4. **Sharing your ETA-** you can also share your destination information & ETA with friends (via Facebook, Twitter, or WhatsApp). Just click the three dots on the left side to see more options and click 'Share with Friends'.

5. To exit Ride Mode click the "X" on the right.
